

1. Do not second-guess yourself, if you think the answer is “A” leave it “A”. Do not change your answers.
2. Take the entire test, then go back and look up the ones you could not answer.
3. Take your time
4. Get to the test location early, so you do not have to worry about being late
5. Don’t worry about the speed of the others around you taking the exams. If they finish before you do, don’t think that you are running late.
6. Don’t get worried if you see some questions on the exam that are not familiar to you.
7. Do not leave the test location.
8. Take a small break if you feel you are “losing it”.
9. Easy on the caffeine before and during the test.
10. Eat a good breakfast before the test.
